

the industry standard since 1986

**ROAD PRO
6170C**

Powered by a reliable John Deere 6.8 liter liquid cooled, turbo charged Tier III diesel engine rated at 173 hp at 2400 rpm

Heavy duty, hydraulic operated PTO clutch with soft start feature and overspeed protection

Patented, full floatation tooling allows the cutting action to conform to the road surface at all machine speeds with little or no operator intervention

Can be quickly changed from right hand to left hand operation

Excellent operator visibility of work area.

Fully integrated dust collector for virtually dust free operation

Simple one man operation helps keep operating cost to a minimum

Can be equipped with diamond blades, flail bits, milling cutters, and shot blasting heads just to name a few

12 forward, 4 reverse gears covers a wide range of operating speeds

Options include automated skip line controller, digital depth readout, LED strobe lights, and a small arrow board
